My name is Natalia and this magazine will be devoted to my stay in Bucharest, Romania, hosting organization ACTOR. My sending organization is Fundation CAT (Centrum Aktywnosci Tworczej) from Leszno, Poland. Aim of the project is to create a debate and cooperation among all the participants EVS specialists, mentors and coordinators, to improve the quality of the mentors' support for young volunteers with few opportunities involved in the EVS projects. In my organization I'm a coordinator of local projects, and when it comes to projects related to EVS, I'm a special mentor for volunteers who need special support. In this magazine I want to describe my experiences and feelings that accompany me during job shadowing. I will try to describe one day on each page. Also including arrival and departure days.

Because I think that every day people can learn something and what we learn will depend only on ourselves. On the day of arrival I didn't have much time for any activities. It was time to get acclimatized in a new place. But the most amazing thing for me was the trip from the airport to the flat. I think I had the pleasure to find the greatest guide in the city. During the trip he talked about monuments, museums and the most important buildings. But the most important thing for me was that I could learn more about the history of this beautiful city. In a sense, thanks to his stories, I could feel part of the community. I could feel the real Bucharest, not the one who wants to show us the media or the internet. It was a very moving experience for me. I think that for many young people it could be the best history lesson, but also a great humility lesson.
