

## **KOMST is looking for creative EVS**

### **"The GO Gallery"**

*The EVS volunteer takes care of an art gallery and gets the chance to create an exhibition in the Netherlands*

---

We are the Komst foundation, which focusses on bringing youth together locally, nationally and internationally. We aim to make our local youth aware about the national and international possibilities they have. Our foundation would like to improve international relations between youths and to let them explore and create an understanding of each other's cultures. We are located in Den Helder a coastal town with around 60.000 inhabitants. Den Helder is located in the north part of the Netherlands, which is 1 hour from Amsterdam. Komst is a non-profit organization run by a team of passionate professionals in the field of arts and teaching.

Our 6-month EVS project "The GO Gallery" is approved by the Dutch National Agency, and we have place for 4 creative volunteers, starting from September 15th.

"The GO Gallery" offers the chance to work in an organization that runs an active art gallery. The Komst gallery is more than a place for exhibitions alone: it is a gallery where artists not only exhibit, but also can live and work. It's also a place where young people come together to plan international projects. The EVS volunteer will be working here for 6 months, in the daily routine of the gallery. Next to this it's possible for the volunteer to work on their own exhibition. Besides being creative, the volunteer will be working together with other EVS volunteers to promote the EVS program and all activities of our organization on local high schools. Also we offer the possibility to work with local artists, and in social art workshops. When the volunteer feels the need to develop its own project besides aforementioned activities, we are always there to support it. Be prepared for a lot of work and a lot of fun.

During the project, the volunteer will be living in our so called Eurohouse. This is a house where we have our office, art gallery and living place for our international team of volunteers. In the Eurohouse the volunteers will find everything they need for a comfortable live. The house is located in the middle of the city centre, so all facilities such as shops, cinema, library and bars are just round the corner. For all further transport we will provide the volunteer with the most typically Dutch mean of transport: a bike.
