# WHO are we?

The charity and support fund "G Children's World" was established in Mazeikiai, Lithuania in November, 2010.

We give our assistance to children from financially poor families in Lithuania. We believe that those families, and especially large ones, lack public attention and support.

Moreover, in those families grow many bright, talented, active children, for whom deprivation often suppresses the desire to achieve something, improve, and create. We aim to help these children to enable them to unfold in creation and sports, to have the motivation to learn and see the world more widely.

We strive to serve as a bridge between the municipalities, business associations, major local companies and citizens residing in Lithuania and abroad. Our goal is to unite those people, the businesses and organizations that can help, support, and be the center for the people searching for help.
