

FINAL REPORT – VALERIA CARIO

I came in Poland a Sunday of March
with a bad mood and not a lot of aspectations,
everything was gray and cold
but I saw the best view over THAT door!!
the first flat didn't looks like cozy
but needed only to know better the people
in the beginning Kuba looked like strange
but after I knew a really good guy,
Tomek and Kasia are an harmony couple
but I didn't talk about my fashionable roommate
Ozge arrived late as a star
and after some time we found our balance
with Merve and Elif we found a common interest
and TANTA ROBA became our secret code when we can't keep calm our hormons

OFFICE AND FOUNDATION PART

the office is quiet and familiar
but for us there are a lot of tasks and we need to be ready
between presentations, flashmob and workshops
for sure you can't be bored;
but in our life there's no only "job":
after 7 hours for sure we need to meet all together and have fun
with Veronika, Alex, Luiza and Gines there was a good feeling
but nothing compared with my husband (the first one)
I choose Jesus as my husband in the beginning of this adventure, but I don't understand if he's
happy or scared about it ☹
who saw "our relation" was a little bit jealous
that's why I started to make my list (maridos' list) more long
In Leszno we are welcome and happy
that's why I don't want to leave this city and I can't forget all the faces of the new friends
how I can forget Katy, Monika, Marta and Mara
and all the laughs that sign this adventure
EVS was an evolution,
an experience that I want to do again with more consciousness
I saw beautiful places and met interesting people
that's why the end started to be so stressfull
I'm sad if I think that the days will be less frizzy
And I can't live other crazy nights in Mala
I will miss Demon, Antidotum, Cegla and the neighbors too
with disco polo and italian music they made our afternoons more funny

I will miss every activities that I did during these 10 months,
the initial chock soon became a total pleasure
now I can control my anxiety, and this is one of the best results of this EVS
I didn't speak about my mentor Danuta, that stayed with me as a sister since the first day
is with her that I want to start to say thank you to some people
and I hope to don't forget nobody
if we are in this point it's meaning that the end is coming
but I don't want to remember this night with tears but full of joy and happyness
inside myself I know that one day I will come back
maybe with the next full moon ..;)

I WANT TO SAY THANK YOU TO:

Danka and all her family for the support, Scimigielski house for the training that made during the first three months, Mala Koscianska with her hearth, soul and secrets, Leszno and all the inhabitants, the drunk people, Marla, Magda....and all CAT foundation for the familiar enviroment, for the laughs and for the opportunity, Ozge and Jesus for stayed with me during this project, the TANTA ROBA men (so less), the SAXOFONIST, all volunteers that I met, disco-polo, ochy zielone, antidotum, Demon and Cegla for the beautiful nights, the 30 barbecues that we had this summer, Filip (the lovely neighbour) for the awesome view from my room, Patryk and Agnieszka for the laughs and the nights together, Vivaldi for the soundtrack, my three husbands that created with me the funniest common life ever
