WHAT IS IT ABOUT?

EU AND ME

How can young people shape the future of Europe? How can youth leaders and workers make a real impact in their communities? The “EU and Me: Youth Empowerment and Leadership in Action” training is designed to answer these questions by equipping participants with essential tools, knowledge, and skills to drive meaningful change.

Throughout this dynamic program, participants will dive into the opportunities offered by the EU, including Erasmus+, the European Solidarity Corps, and the Youthpass certificate. They will explore how the EU Youth Goals can be transformed from policy into action, creating impactful local projects with a focus on solidarity and inclusion. Leadership is at the heart of this training. Through interactive workshops, participants will sharpen their communication skills, master the art of team motivation, and learn how to manage time and projects effectively. They will also build confidence in public speaking and presentation, preparing them to become inspiring voices in their communities. But leadership isn't just about skills—it's about people. That's why this training puts a strong emphasis on inclusivity and diversity, offering practical strategies to engage young people from different backgrounds, including those facing life challenges. Participants will gain tools to create a truly open and accessible space for all.

Sustainability is another key focus. In an era where environmental responsibility is more important than ever, participants will learn how to design eco-friendly youth projects in line with EU priorities and integrate green practices into their daily work.
