WEATHER BRITAIN HAS BROUGHT US RAIN

Is Leszno happy about that?

Due to Brexit signed up for next year, the rain is moving out of UK early. The roots of rain aren't yet established but they definitely did not originate down in England, therefore, the rain is distributed equally over the rest of Europe.

John from UK has kindly agreed to bring to Leszno its portion during his visit this week.

Ever since John arrived it did not stop raining, even during the City Game, contestants were forced to come out in the rain, many of whom were not happy.

John was not available to comment at this time.

A new remake of the three Musketeers is taking place this week. The gender equality fighters and pro diversity team has manifested they opinion about the limitation of only three people in role of main character. Therefore the producer has decided to go for " The Fifteen Musketeers" rather.

JOKE OF THE DAY

A biology teacher wished to demonstrate to his students the harmful effects of alcohol on living organisms. For his experiment, he showed them a beaker with pond water in which there was a thriving civilization of worms. When he added some alcohol into the beaker the worms doubled-up and died.

"Now," he said, " what do you learn from this?"

An eager student gave his answer.

"Well the answer is obvious," he said " if you drink alcohol, you'll never have worms."
